Lay-Z-Spa™ DOME
OWNER'S MANUAL

Warning

1. This dome is designed for moderate weather use. Water resistance performance and components will be degraded if exposed outdoor for a long time.
2. **DO NOT OVER-INFLATE THE POLES.** Final pole pressure must not exceed (0.48 Bar) 7 PSI.
3. Keep all flames and heat sources away from dome fabric. We recommend that you always position your dome upwind from a camp fire, which will reduce the chances of having embers landed on your dome. In case of fire, please find the exit to escape.
4. Never set up the dome near the river, under the tree or other hazard objectives.
5. Keep exits clear.
6. Make sure ventilation openings are open all the time to avoid suffocation.
7. If use a SPA together, please stay outside the dome in case of the smell when put pills to purify the water.
